MEMORANDUM FOR: Director of Central Intelligence  
VIA: Deputy Director of Central Intelligence  
FROM: Director, Intelligence Community Staff  
SUBJECT: Merchant and Fishing Fleet Intelligence  
REFERENCE: DNI Memorandum, SER 009/191, 13 November 1982

Attached for your review and signature is a proposed affirmative response to John Butts' referenced memorandum. I am in favor of our participation in this because both the objectives and potential benefits being sought here appear to be eminently worthwhile. This initiative is in line with my efforts to encourage greater use of ICS as a medium for bringing Community members together to address matters of common concern.

MEMORANDUM FOR: Rear Admiral John L. Butts, USN  
Director of Naval Intelligence

SUBJECT: Merchant and Fishing Fleet Intelligence

In regard to your memorandum of 15 November, I share your belief in the utility of joint review and planning by agencies requiring merchant and fishing fleet intelligence in performance of their missions. Consequently, I have asked  to provide the support you request, and desire to be informed of findings and recommended actions.

MEMORANDUM FOR: Deputy Director for Intelligence

FROM: Director of Global Issues

SUBJECT: Merchant and Fishing Fleet Intelligence ☐

25X1

REFERENCE: Director of Naval Intelligence Memo 009/191 of  
15 November 1982 ☐

25X1

1. The proposal contained in the above-referenced memorandum to convene a meeting of representatives of all departments and agencies with a primary interest in merchant and fishing fleets for a discussion of their overall plans and current work in my judgment has considerable merit. As noted by Rear Admiral Butts, OGI is currently working closely with NOSIC in the development of our Automated Merchant Shipping Data Base as part of our Research Program in order to devise a means of better tracking the flow of cargoes of interest (arms, petroleum, grain, etc.) around the world. NOSIC's very large ship-tracking data base (SEAWATCH) will provide important and substantial input to our system. In turn, we expect that our data base and the analytical software associated with it will do much to assist current labor-intensive (and often duplicative) efforts elsewhere in the DDI and at NOSIC to track such cargoes, with benefit for all. We therefore welcome discussions aimed at allocating requirements and sharing responsibilities for collection management, processing and reporting on the merchant ship problem. ☐

25X1

2. The DCI's proposed response to Admiral Butts appears perfectly appropriate to me. My only immediate concern is that decisions concerning resource-sharing in such a forum as always should be subject to independent Agency review and approval. ☐
